Mélissa's Story

“I have lived all my life with congenital heart disease, more precisely an anomalous right coronary artery. Two years ago, I had emergency open-heart surgery because it could suddenly rupture at any time. I'm so thankful for the cardiologists, surgeons and nurses who are with us throughout this difficult process. They're so precious! They save lives every day. We're lucky to have such specialized care here in Quebec. I proudly wear the title of ambassador, because this cause is close to my heart and it's an honour to invite people to donate. Health is priceless! A healthy heart is LIFE!”
